

# Polycom VVX 400/410G – Initial Setup

Front

Back

# Polycom VVX 400/410G

## Installing your phone:

- 1 Turn the phone body over to expose the ports on the back of the unit.  
**CAUTION**  
Do not insert a telephone line cord into the auxiliary port.
- 2 Insert the long end of the phone cord into the handset port on the phone body that is marked with a phone symbol.
- 3 (Optional) Route the handset phone cord through the cable slot.
- 4 Insert the other end of the handset phone cord into the port at the bottom of the handset (not shown).
- 5 (Optional) Connect the phone stand by fully inserting the stand into one of the slots on the back of the phone. The slot you choose determines the angle of the phone. To make the phone have a more vertical stance, insert the stand into the lowest slot in the back of the phone. To make the phone have a more horizontal stance, insert the stand into the highest slot in the back of the phone. Do not force.
- 6 If you are using an external power source, insert one end of the power cord into an outlet and insert the other end of the power cord into the power port on the phone body.
- 7 Connect your phone to the network:  
Using an Ethernet Connection – Insert one end of the included Ethernet cable into the network port on the phone body marked with a network symbol. Insert the other end of the Ethernet cable into the appropriate device, such as a network switch, on your network.  
**Note:** Please ensure that the Ethernet cable used to connect the phone to the network switch is the included Ethernet cable.
- 8 (Optional) To provide network access to a PC, connect one end of an additional Ethernet cable (not provided) to the PC port on the back of the phone body. Connect the other end of the Ethernet cable to the network port on your PC.
- 9 (Optional) To install the phone on a vertical surface, use the Polycom Wall Mount bracket. See the Polycom User Guide or the Polycom VVX phone documents on Polycom.com for more information.

## Phone Setup:

### ▶ How to Adjust the Ringer Volume

1. Press and release the Volume (plus up or minus) keys while the phone is on the hook to adjust the ringer volume as desired. A horizontal scale displays on the phone to indicate the volume level.

### ▶ How to Adjust the Handset, Speakerphone, or Headset Volume

1. Activate the desired choice by picking up the handset, or pressing the Headset or Speaker button on the bottom right of pad.
2. Press and release the Volume (plus up or minus) keys to adjust the volume as desired. A horizontal scale displays on the phone to indicate the volume level.

## Call Management:

### ▶ How to Make a Call

#### *Using the Handset*

1. Lift the handset.
2. Dial the number, including "1" and the area code or simply press the desired digits for an internal call.

#### *Using the Speakerphone*

1. Press the SPEAKER button.
2. Dial the number, including "1" and the area code or simply press the desired digits for an internal call.

### ▶ Hold

1. During a conversation, press the hold key. The hold key is the button with a pause and handset symbol. The associated line key blinks.
2. To resume the conversation, press the blinking line key and begin speaking.

# Polycom VVX 400/410G

## ▶ How to Answer the Phone

When you hear your phone ring and see the red light flash on your phone, answer in any of the following ways:

1. Lift the handset.
2. Press **SPEAKER** to use the speakerphone, or press the associated blinking line key.
4. Press **HEADSET** to use the headset (optional).

## ▶ How to Answer a Second Call

The easiest way to answer a call when you are already speaking is to use the **ANSWER** softkey. Alternatively, you can press the associated blinking line key. The first call is automatically placed on hold and you are connected to the second call.

To reconnect with the first call simply press the blinking line key of the original call.

## ▶ How to Make a Second Call

1. During a conversation, press the hold key.
2. Press any available green line key.
3. Dial the number for your second call.

## Phone features:

### ▶ Transferring Calls

#### *Attended Transfer*

1. During a conversation, press the **TRANSFER** key. The call is placed on hold and you hear a dial tone.
2. Dial the number to which you want to transfer the call. You now wait for the extension to answer so you can announce the transfer.
3. If the called party is available, press the **TRANSFER** key again to complete the transfer.
4. If the called party is unavailable, you can hang up and press the blinking line key of the original call to cancel the transfer and return to the holding party.

#### *Blind Transfer*

1. During a conversation, press the **TRANSFER** key. The call is placed on hold and you hear a dial tone.
2. Press the **BLIND** key
3. Dial the number to which you want to transfer the call.

### *Transferring a Call Directly to Voicemail*

1. During a conversation, press the **MORE** softkey and then the **XFER2VM** softkey and then enter the extension of the Voicemail you would like to transfer to and then press the **ENTER** softkey.

## ▶ Conference Calling

1. Establish a conversation.
2. Press the **MORE** softkey, followed by the **CONFRNC** softkey. The call is placed on hold and you hear dial tone.
3. Dial the number of the person that you want to include in the conference.
4. When the person answers, inform the party about the conference and then press the **MORE** softkey, followed by the **CONFRNC** softkey again to add that party in the conference call.
5. If the called party is unavailable, you can hang up and press the blinking line key of the original call to cancel the conference and return to the holding party.

### *Conferencing a Held Call with an Active Call*

If you have a call on hold and an active call, you can create a conference call between the active call, the call on hold, and you.

1. With an active call and one or more calls on hold, press the **Join** softkey.
2. If you have only one call on hold, the conference call is created between the three of you.
3. If you have more than one call on hold, choose the held call you want to conference in by pressing the line button of the call on hold.

## ▶ How to Park a Call

1. Establish a conversation.
2. Press the **PARK** softkey.
3. Dial the extension you want to park the call on and press **Enter**.

### *How to Retrieve a Parked Call*

1. Press the **UNPARK** softkey.
2. Dial the extension where the call is parked and then press **Enter**.

# Polycom VVX 400/410G

## ▶ How to Intercom

1. Press the INTERCOM softkey.
2. Once you hear the dial tone, dial the extension you wish to intercom and press Enter.

## ▶ Do Not Disturb

Do Not Disturb instantly routes all your incoming calls to your voice mailbox, but still lets you make calls and use other telephone features.

1. While the phone is in an idle state, press the home button on the right side of the phone and then select the DND yellow box using the black directional pad. The LCD displays all of the lines with a red symbol. To cancel the feature, press the home button and then select the DND yellow box using the black directional pad. You can also press the MORE softkey and press the DND softkey to enable and disable this feature.

## ▶ Directed Call Pickup

Directed Call Pickup allows you to pick up the phone of anyone in your group.

1. While another member of your group's phone is ringing press the MORE softkey, followed by Pickup softkey and then enter the ringing extension you would like to pickup.

## ▶ How to View Missed, Received and Placed Calls

1. Press the DIR softkey.
2. Use the black directional pad to scroll down and select RECENT CALLS, then press the SELECT softkey.
3. Press the softkey labeled TYPE and then select the desired call history option: All Calls Missed Calls, Received Calls, Placed Calls.
4. Press the Left arrow on the Directional pad to scroll back through the menus and exit, or simply press the Home button.

## Voice Mail Features

### ▶ Accessing Voicemail

*To Access Your Voicemail from Your Phone*

1. Press the Messages (envelope) button on the phone
2. Press the CONNECT softkey.

## Portal Features

### ▶ Voicemail to Email

*To send a copy of your voicemails to an email address:*

1. Login to <http://portal.arena1.com>
2. Select "Messaging" from the options, then select "Voice Management".
3. Towards the bottom of the page, in the "Additionally..." section, click on the check box that says "E-mail a carbon copy of the message to \_\_\_\_\_" and enter your email address in the box.
4. Click on "Apply" or "Ok" button.

*To send your voicemail to an email address without storing a copy on your IP Phone:*

1. Login to <http://portal.arena1.com>
2. Select "Messaging" from the Options, then select "Voice Management".
3. Towards the middle of the page, in the "When a message arrives..." section, click on the radio button that says "Forward it to this e-mail address:" and enter your email address in the box.
4. Click on "Apply" or "Ok" button.

### ▶ Forwarding

Use this feature to forward all incoming calls on an extension to another extension or external number. When someone dials your extension, the forwarded extension or number receives the call. You can forward calls to an IP or non-IP phone. Forwarding is controlled via a web portal, allowing you to forward from any web browser while away from your desk.

*To Forward a Line*

1. Login to <http://portal.arena1.com>
2. Click the Incoming Calls link on the left hand side.
3. Select the type of call forwarding you want to enable.
  - A. Call Forwarding Always: Automatically forward all your incoming calls to a different phone number.
  - B. Call Forwarding No Answer: Automatically forward your calls to a different phone number when you do not answer your phone after a certain number of rings.
  - C. Call Forwarding Not Reachable: Automatically forward your calls to a different phone number when your phone is unreachable (offline).

# Polycom VVX 400/410G

4. Click the On radio button.
5. In the empty space enter the phone number to which you want to forward your calls.
6. Click Apply and then Ok.

## ▶ To Disable Forwarding

1. Login to <http://portal.arena1.com>
2. Click the Incoming Calls link on the left hand side.
3. Select the type of call forwarding you want to disable.
4. Click the Off radio button.

## *Simultaneous Ring Personal*

Ring multiple phones simultaneously when calls are received.

To Enable Simultaneous Ring Personal

1. Login to <http://portal.arena1.com>
2. Click the Incoming Calls link on the left hand side.
3. Click the Simultaneous Ring Personal link.
4. Click on the Add Button.
5. Enter a Description and click on the OK button.
6. Click the On radio button.
7. Enter the Phone numbers that you want to ring simultaneously with your IP phone.
8. Leave the rest of the options as defaults.
9. Click Apply and then Ok.

## *To Disable Simultaneous Ring Personal*

1. Login to <http://portal.arena1.com>
2. Click the Incoming Calls link on the left hand side.
3. Click the Simultaneous Ring Personal link.
4. Click Off radio button.
5. Click Apply and then Ok.
