

Company Overview

Transbeam, Inc., headquartered in New York City, is a nationwide provider of Data, Voice, Professional IT Services and Event Connectivity backed by our wholly owned next generation network. Founded in 1996, we are a privately owned, financially stable company and have experienced steady organic growth over the years.

Our services are backed by a reliable MPLS/VPLS data and voice network with multi-access transport methods, professional services, highly-certified engineering staff, efficient and responsive installation services and 24/7/365 technical support from our Network Operations Center (NOC). Transbeam combines the strength of a best-in-breed, large scale national network of a major carrier with the service and expertise of the most committed and knowledgeable IT consulting firm.

History Highlights
